

On the novice boys' side, things went well in the sweep events and are looking to improve the sculling for the future regattas. The Novice B eight, Novice A and B fours, and Freshman four all won their events with no competitors overlapping their boats. The Novice A eight and Freshman eights were both edged out at the end by two feet and three seats, respectively. Both A and B quads, plus the single and double will be working over the next couple of weeks to refine their proficiency in the sculling events so that the months of hard work is more apparent. Overall, the weekend was a great start to the spring season and will help us gauge how much farther we need to go to be successful mid-May.
